### **About AEye**

AEye is the provider of unique software-defined lidar solutions that enable advanced driver-assistance, vehicle autonomy, smart infrastructure, and logistics applications that save lives and propel the future of transportation and mobility. Its latest sensor, Apollo, is a high-performance 1550nm lidar sensor capable of detecting objects at distances of up to one kilometer, and delivers exceptional resolution in a compact, power-efficient, and cost-effective form factor. Designed for flexible deployment, Apollo integrates into vehicles as well as fixed infrastructure to support both ADAS and intelligent transportation systems and is ideal for dynamic applications which require precise measurement imaging to ensure safety and performance.
